

QA & Testing profile

TEAM International (since 1991) is a U.S. owned Offshore / Nearshore Software Solutions company delivering Custom Software Development and QA & Testing services to US, European and Pac Rim IT organizations.

We offer nearshore software solutions from our Eastern-European Operations Centers in Kharkiv & Lviv, Ukraine, and Lublin, Poland, and South American Operations Center in Medellin, Colombia.

Our Testing Services can be tailored to your particular internal processes. Testers can contribute to the project at any point in the development cycle.
